

Don't Forget!

The Display will be the first thing that everyone will see when they approach your project.

➤ **Include the following items on your display board:**

- Title
- Purpose
- Problem
- Hypothesis
- Materials
- Procedure
- Results
- Conclusion
- Abstract*

*The abstract is only required for High School Exhibits.

MAKING THE DISPLAY

Whatever you do in thought word or deed, do it all for the glory of God.
~ 1 Corinthians 10:31

Purpose or Question:

What do you want to find out?
Can you come up with an experiment to answer your question?

Hypothesis

What do you think will happen?

BE Specific with your answer and make sure you use a complete sentence.

Background and Research

Tell your audience about the topic you have chosen.

- Write efficiently.
- Check your grammar.
- Cite your resources.

Title

Come up with something that will explain your project and draw attention to your board.

Materials & Procedure

List all the materials and steps which you took in your project. Make sure you label everything correctly.

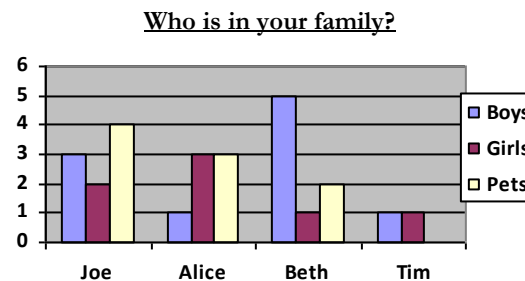

Experiment

Write down all the details from your experiment. Be sure to include all your measurements.

Charts, Graphs and Data

Show all your Results.

Include enough data to prove or disprove your hypothesis.

Example Bar Graph: Include a title, a key, labels, and color.

Results and Analysis

What happened?
Did your results support your hypothesis?
Are your results reliable?

Pictures

It is always a great idea to include pictures of your project in process or in stages.

Conclusion

Write a summary of what you learned. Don't forget to address your results and explain them. Use complete sentences.
